

THE
**Welcome
to America**
PROJECT

Partner with our partners to help refugees connect, commute, perform and make goals . . .

PCs for Refugees

We welcome with connection. As part of our mission to share technological resources with refugees as a means of speeding their paths to self sufficiency, we partner with PCs for Refugees. Jobs, education and access to community are in closer reach with a computer. WTAP accepts computers in donation and PC4R works out of our warehouse to ready computers for refugees. We'll install a computer on every welcome and also work on special projects, schools for example, to make certain that refugees have access to technology. To support this initiative, you can donate used computers, laptops, monitors, and other accessories to WTAP during our donation hours.

Phantom Cyclist

We welcome with wheels. Transportation is a major challenge to refugees who must rely on public transportation to travel to jobs, school, English classes, doctors appointments, shopping and more. WTAP partners with Phantom Cyclist to make certain that these pursuits are more accessible. A bike broadens employment possibilities and by shortening commutes, adds hours to a refugee's day. WTAP takes bikes in as donation and works with Phantom Cyclist to schedule volunteer Bike Nights, where bikes are readied for refugees. We bring bikes to every welcome and arrange special bike distribution through resettlement agencies, schools, and ethnic community-based organizations. To support this healthy program, you can donate adult bikes, kid bikes, locks, air pumps, helmets, and other bike accessories to WTAP during our donation hours.

HeartBEATS

We welcome with melody. WTAP partners with HeartBEATS, a youth-led organization dedicated to creating meaningful connections between the Phoenix refugee community and our volunteers through music programs and activities. HeartBEATS provides music kits to share on our refugee visits, hosts music activities at our clothing closets and creates music events for the refugee community. To support this sound effort, you can donate musical instruments of any kind to WTAP during our donation hours.

Freekicks

We welcome with passion! What better way to say hello than to recognize a refugee's sports passion, soccer! With Freekicks, we take soccer balls to every welcome and all clothing closets. Play begins! The connections made are instant and everlasting for refugees and volunteers. WTAP works with Freekicks to support Phoenix-area refugee soccer teams. To assist the goals of this program, you can donate soccer balls, cleats, shorts, socks, shirts, and other soccer items to WTAP during our donation hours.
